

**MITCH SNYDER**  
President and CEO – Bell

Mitch is the president and chief executive officer of Bell.

Before being named CEO in October of 2015, Mitch was executive vice president of Military Business responsible for providing strategic direction, overall management and performance for all of Bell's government programs.

He spearheaded several of the company's most significant initiatives, including the V-22 Program, as well as led the manufacturing centers.

Prior to joining Bell, Mitch held several senior leadership positions at Lockheed Martin in engineering, business development, manufacturing and program management. He worked with customers throughout Europe, Asia and the Middle East.

A proud graduate of Kansas State University, Mitch holds a Bachelor of Science degree in electrical engineering. He is also an Alumni Fellow and Hall of Fame Inductee selected for his distinguished service throughout his career in the industry.

#### **ABOUT BELL**

Thinking above and beyond is what we do. For more than 80 years, we've been reimagining the experience of flight – and where it can take us. We are pioneers. We were the first to break the sound barrier and to certify a commercial helicopter. We were aboard NASA's first lunar mission and brought advanced tiltrotor systems to market. Today, we're defining the future of on-demand mobility.

Headquartered in Fort Worth, Texas – as a wholly-owned subsidiary of Textron Inc., – we have strategic locations around the globe. And with nearly one quarter of our workforce having served, helping our military achieve their missions is a passion of ours.

Above all, our breakthrough innovations deliver exceptional experiences to our customers. Efficiently. Reliably. And always, with safety at the forefront.
